Fact sheet for Students

Updated: July 11, 2015

Before a class begins

See today's sessions
- See class sessions assigned to you along with details of room/subject/teacher.
- Get notified when a class is delayed or cancelled.

See next-scheduled-class seating plan.
- Visualise your seat in a seating chart along with peers.
- Get notified of any seating plan changes.
- Check-in the seat allotted to signal your attendance to the teacher and school.

During a live class

Raise a query
- Raise a text query anytime of the lecture
- Set your query as anonymous
- Withdraw your query after sending and resubmit with changes
- Get notified when teacher started to look at your query.

Answer objective type broadcasted question
- Respond by selecting one or more of the choices
- See the correct answers as soon as teacher freezes responses
- See class aggregate

Respond by handwritten scribble
- Mark on diagrams sent by teacher
- See feedback from teacher or peer

See model answer
- See thumbnail of model answer alongside your answer
- If your answer is model see it visualised in a different colour
- Inspect more than one model answers

Vote on other students' queries
- Vote with two options: "Me too" or "I volunteer"
- Get selected by teacher to respond to someone's query
- Vote on other student's answers with "Good answer" or "Not sure"
- See your response votes from peer

- See teacher's feedback on your response

Post classes

Check your class interactions:

Go to site: http://54.251.104.13/learniat/index.php/login & sign in. Use the same sign in as you use on ipad.

All class interactions can be seen on a web application.

* Feature in development and will be available in next release
